REACH Declaration of Conformity

Regulation (EC) No 1907/2006 – Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) – governs the control of chemicals substances and mixtures manufactured or imported to the European Union. It requires chemical manufacturers and importers to gather information on the properties of their substances and to register that information with the European Chemicals Agency (ECHA) if the substances exceed 1 metric tonne per year, unless exempt.

REACH also requires suppliers of articles containing Substances of Very High Concern (SVHCs) to provide users with information allowing for their safe use. Substances of Very High Concern (SVHCs) are chemical substances that pose significant risks to human health and the environment. They are subject to an authorization process managed by ECHA.

ACCO Brands Corporation and our subsidary companies (collectively "ACCO") declare that our products and the accompanying packaging materials intended for the European market comply with Regulation (EC) No 1907/2006 (REACH) and all amending regulations up to the date of issue indicated below, including Commission Regulation (EU) 2023/2055 of 25 September 2023 regarding synthetic polymer microparticles.

ACCO products do not contain any SVHCs on the Candidate List, as published current to the date of issue indicated below, in a concentration above 0.1% weight by weight except for the products identified in our REACH Article 33 Communication found here:
https://www.accobrands.com/compliance-center/eu-reach-compliance

The statements in this document regarding our REACH compliance do not extend to, or apply to, any product subjected to unintended contamination, misuse, neglect, accident, or improper installation nor to any product not intended for the European market.
